

Science project on traffic lights

Equipment needed:

- Shoe box
- Sellotape
- Scissors
- Black colouring pencil

Preparation:

1. Colour piece of paper black for outside the traffic lights and then stick the colored paper on the shoe box.
2. Get your shoe box and cut three circles out.
3. Place your sweet wrapper inside and stick them on.
4. Place torch inside to test out your traffic lights and watch closely as the sweet paper of the traffic lights light up.
